

# How do I login to the control panel?

You want to manage your website and need to log in to the control panel. First make sure you have an account with us.

Once you are sure you have an account you can surf to:

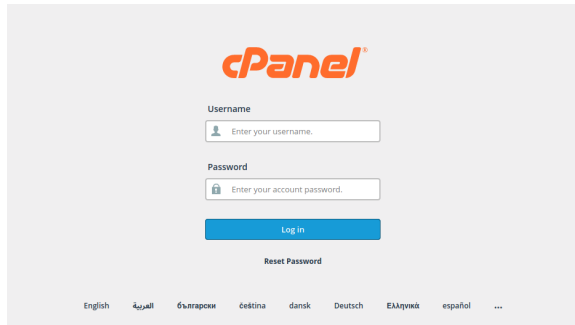

<https://panel.iswlab.be:2083>.

Too hard to remember? You can also surf to:

`http://YOUR_DOMAIN_NAME:2083`

For example <http://iswlab.be:2083>.

If all went well you should see the next screen:

The image shows the cPanel login interface. At the top center is the cPanel logo. Below it, there are two input fields: one for the username with a person icon and the placeholder text "Enter your username.", and one for the password with a lock icon and the placeholder text "Enter your account password.". Below these fields is a blue "Log in" button. Underneath the button is a link for "Reset Password". At the bottom of the page, there is a horizontal list of language options: English, العربية, български, čeština, dansk, Deutsch, Ελληνικά, español, and an ellipsis (...).
